

Why go Pro?

Because orthodontic-lead aligner care is straight-up comprehensive and proven.

SAP-P80721

The proof is in the Results.

With our Orthodontic-lead aligner care program, you will be provided a premium experience, supported by the latest imaging technology and our quality aligners.

BEFORE

AFTER

WHY CHOOSE STAR ALIGNERS PRO?

The biggest reason, is the knowledge, support and convenience that comes from a custom plan developed by your orthodontist.

- Customized 3D aligner treatment
- Comfortable and quick treatment
- Average treatment duration is 3-6 months.
- StarAlignersPro™ Aligners are hardly visible.
- BPA-free plastic (*mitigates cheek and gum irritation*)
- No restrictions on foods or activities*
*aligners must be removed for every meal

YOUR TEETH & YOUR HEALTH

Misaligned teeth can lead to premature wear, tooth loss, gum disease, while the buildup of bacteria can lead to heart disease.

More than seven out of ten American adults have some kind of issue with their bites, such as crowding, spacing, or overbites which lead us on this mission to create StarAlignersPro™ aligner care.

TESTIMONIALS

The Patients

"My aligners are comfortable and were only slightly sensitive at the very beginning. The process was easy to get started and I was able to see progress just 2-months after starting my plan. Big fan."

- N. Asher

"I was told just after 6-months that I was progressing faster than expected, which had me even more committed to my treatment plan. #goals #winning"

- C. Hatcher

The Orthodontist

"StarAlignersPro™ provides the patient with the best option for mild to moderate aligner treatment."

- Dr. R. Redmond

"Being able to customize a plan for our patients, based on actually seeing the condition of their smiles in-person, is everything."

- Dr. J. Smith
